This manufacturer-led program turns previously hard-to-recycle exam gloves, single-use apparel items and safety eyewear from Kimberly-Clark Professional* into durable consumer goods.

The RightCycle™ Program helps you to divert used PPE from landfills in support of zero waste initiatives.

**The program is both flexible and affordable:**
- Participate as an individual lab.
- Partner with the storeroom or other labs to drive logistical efficiencies.
- Collect used, non-hazardous Kimberly-Clark Professional* branded PPE in any sized cardboard box.
- You pay for freight and we take care of the rest!

---

**How The RightCycle™ Program Works**
*Non-hazardous waste streams only. For more details, go to KCProfessional.com/RightCycle*

1. Garments and gloves are worn in the customer’s facility.
2. Used products are collected and shipped to our recycling centers.*
3. Used products are sorted and processed into plastic pellets or nitrile powder.
4. Materials are molded into new eco-responsible plastic products and durable goods.

---

**Promotional Offer:**
Valid through December 31, 2023. Send proof of purchase to kimtechpromos@kcc.com for redemption. One redemption per ship-to address.

**BUY 3 CASES & GET 4TH CASE AT NO ADDITIONAL COST!**
