CURTIS BAY
MEDICAL WASTE SERVICES

Important Information for our UPenn Customers

Please call Jim Frank at 610-301-2913

- If you would like to request to set up a new lab for service

Please call our office at 610-926-6042

- If you need to request additional service (additional pick-ups and/or exchange of a sharps container), ask for Brian Edwards or Denise Nates
- If you have changes in hours of operation or account contacts, please call and ask for Brian Edwards or Denise Nates
- If you have any questions concerning regulatory compliance or safety issues. Please call Sam Blanchard at 443-257-5195

Sharps Waste Preparation Guidelines

- All sharps waste must be placed in a US DOT approved Reusable Sharp Containers, supplied by Curtis Bay Energy.

- PA DEP & OSHA Regulations do not allow Curtis Bay employees to remove Sharp Containers if the waste is higher than the 75% fill-line or if any of the sharps are protruding from the container. During our regular weekly service visits, if the Curtis Bay technician identifies any compliance issue with a specific container we will discuss the issue with the lab technician(s) and EHRS for corrective action. Once the necessary corrective action is completed the container will be removed from the lab.

- If you have any questions regarding the policies and procedures please contact Marie Luise Faber EHRS Biosafety Officer at mlfaber@ehrs.upenn.edu or at 215-746-6706.

- Segregate your Hazardous Wastes from your Sharps Wastes. Hazardous wastes cannot be combined or transported with Infectious Waste.

We are committed to providing your organization with superior service for all of your environmental needs, so please contact us at once should you have any questions. Thank You!
